

Multi-stages control devices

MS line

General purpose and multi-stages

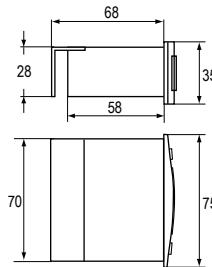

This range of versatile controls is intended for single or multistage (2 or 4 stages) applications such as heating, cooling but also humidity or pressure depending on the input type.

This range incorporates all control functions as required by modern applications and it exists in both panel mount and DIN rail enclosures. Particular attention has been given to its style in order to better suit your machine design.

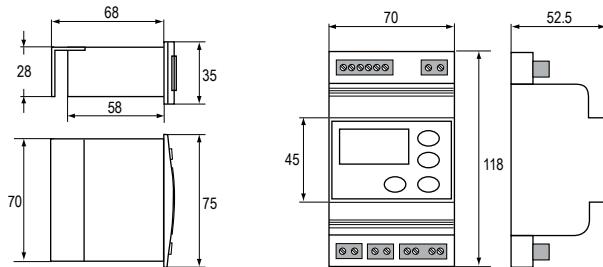

This complete range of microprocessor based controls offers innovative features and "state of the art" technology.

Features

- ▶ Attractive panel mount and DIN rail mount enclosure
- ▶ Up to 4 relays in panel mount enclosure
- ▶ 230 Volt power supply models available
- ▶ Accept temperature (A99) and 0-10 Volts sensor signal depending on models
- ▶ Power supply to sensors on 0-10 Volts models available from controller
- ▶ Accurate and interchangeable IP68 sensor
- ▶ Wide range of enclosures for sensors available
- ▶ Keyboard lock
- ▶ SMD technology
